允許遲交	不允許 (同儕互評的作業，一律不允許遲交)
成績比重	1%
評分方式	直接打分數

說明 Rewrite Practice

01 "The old guy in bed 3 is really out of it today." → Rewrite using appropriate clinical and academic language. Think: who is the subject? What symptom is being described?

02 "I think stress makes people get sick more." → Rewrite using objective, evidence-based language. Avoid first person and vague phrasing.

03 "The medicine didn't work and the patient got worse." → Rewrite with precise medical vocabulary. What does "didn't work" mean clinically?

04 "She's been having really bad headaches a lot lately." → Rewrite as a formal clinical observation, specifying frequency and severity more precisely.

After practicing, post your best rewrite to the class discussion forum on the EE platform and comment on at least 2 classmates' answers.

You need to give quality comments to satisfy the credit requirements. Full English sentences are recommended, no emojis or one word answers.

交作業
